Every town in Connecticut can boast cultural assets that contribute to a vibrant community and improve the quality of life for its residents.

What are some exciting arts and cultural events and organizations that you have experienced in your community?

I work with a local artist and fund some of his murals around the city

If elected, will you work to strengthen the arts and culture community in the town(s) you serve? If so, how? If not, why?

I will do my best to make our arts and culture community strong and vibrant. I believe art is a terrific way to express love, compassion, fears and many other emotions about things that matter to the individual.

Sandwiched between Boston and New York, Connecticut is often dismissed as a “pass through” state when it comes to tourism. Yet, our state has many world class arts institutions and a rich cultural landscape.

Why do you think arts and culture are important in Connecticut? What is unique about our state's arts and culture?

Well i'll be the first to admit i don't attend many art events and not familiar with the arts scene. That being said with many art schools and artists that are located in Connecticut we definitely don't get the attention we might deserve. I believe if we bolster our marketing towards these institutions we can make our arts program more successful and inviting.

During the Covid-19 pandemic, many people discovered that arts and creativity play a critical role in helping us cope with emotional stress and sustain our mental health. Art helped us process loss, fight loneliness, stay connected and feel hopeful.

Can you share a way that the arts have helped you, your family or your community get through the difficult times of Covid? How will that experience influence choices about the arts you would make as a legislator?

My oldest son (16) as many in our state were dealing with depression during the pandemic. My son found drawing as a great outlet to express and to cope with his issues.

The arts and creativity have a proven track record of economic benefit to our state. The National Endowment for the Arts' Office of Research & Analysis and the Bureau of Economic Analysis report that, in 2020, arts and cultural production in Connecticut added \$8.9 billion to our economy and accounted for 3.2 percent of our gross state product, while the arts and cultural industries employed 49,159 workers with wages and benefits totaling more than \$5.1 billion. Despite these contributions, the arts have historically been first on the chopping block when it comes to budget priorities. What would you do to help keep arts and creativity funded in our state at a level that recognizes their economic importance?

i'm not familiar enough with your budgeting levels to give a honest answer. I can say i believe in our arts programs and will do my best to make sure they have the funding required to continue all their great work.

Connecticut has not had an Arts Education Specialist at the State Department of Education (SDE) since 2016, when the last specialist left. This position is critical to assuring that our State and National Arts Education Standards are consistently implemented in all of Connecticut's school districts, especially those in under-resourced communities where students' access to the Arts is often extremely limited compared to affluent communities.

If elected, would you support refilling the Arts Education Specialist at SDE? If not, why?

i can commit to filling that position.
